

ANTHONY C. MONCION

PRODUCT DESIGNER | INTERACTION DESIGN AND PROTOTYPING

Monticello, NY | hello@rucasrapidpcrepairlab.com

Portfolio: ruca-mobile-presentation-hub.vercel.app/portfolio/

Product designer building independent desktop and Android experiences, with a background in postal operations and hospitality. Focused on information architecture, touch interaction, clear system feedback, and iterative prototyping. Google certified in UX design and advanced data analytics.

DESIGN SKILLS AND TOOLS

Figma, interaction design, information architecture, responsive interfaces, user flows, prototyping, product requirements, design documentation, AI-assisted HTML/CSS/JavaScript development, GitHub, browser validation, technical troubleshooting

INDEPENDENT PRODUCT DESIGN PROJECTS

RUCA OS and RUCA OS Mobile Companion | 2026-Present

- Defined product direction, navigation, interaction requirements, and visual systems for a desktop PC environment and its Android companion. Iterated through Figma designs and functional builds using AI-assisted development.
- Organized desktop readiness, commands, media, live context, diagnostics, and controls within one shell. Developed the current Media Deck flow within PLAY and the Media District.
- Adapted the companion for touch with six configurable HOME ports and five V1 destinations: HOME, MEDIA, SYSTEM HEART, COMMAND DECK, and DIAGNOSTICS.
- Specified connected, stale, unavailable, and unknown states. Reviewed implementation against acceptance criteria and kept public demonstrations separate from private machine telemetry and controls.

La Cosa Nostra Design Studio | Independent local prototype, 2026

- Designed an AI-assisted mission workflow with explicit task ownership, project context, progress state, review gates, and human approval.

Summer Grocery Delivery in the Catskills | Service design proposal, 2026

- Proposed delivery zones, an order lifecycle, staging and dispatch flow, and exception handling. Documented the operating model as a proposal pending implementation and validation.

PROFESSIONAL EXPERIENCE

United States Postal Service | Apr 2019-Apr 2026

Postal Clerk, then Supervisor, Customer Services (EAS) | Middletown / Monticello, NY

- Led daily operations supporting approximately 75 employees and 49 city and rural routes across delivery, retail, logistics, maintenance, and support functions.
- Coordinated staffing, dispatch, vehicle staging, loading-dock activity, reporting, and operational exceptions. Coached employees and resolved customer escalations while maintaining safety and compliance.

Earlier hospitality experience

Resorts World Catskills: Bartender; Ovation Bistro & Bar: Bartender / Mixologist; Planet Hollywood: Server / Bartender; TGI Fridays: Kitchen Supervisor / Server / Bartender; Walt Disney World Resort: Attractions Cast Member.
